## SECTION 1635

### EROSION CONTROL ROADSIDE DEVELOPMENT - ROCK PIPE INLET SEDIMENT TRAP

PROJECT: \_\_\_\_\_

TECHNICIAN: \_\_\_\_\_

REVIEW DATE: \_\_\_\_\_

REVIEWER: \_\_\_\_\_

ACTION	YES	NO	N/A	COMMENTS
Review the permit to ensure that rock may be placed as shown on the erosion control plans.				
Install the proper type of trap to match the pipe size.				
Clean sediment from in front of the trap as necessary.				
Maintain a sufficient area between the pipe and the trap to allow for cleaning.				
If the device is to remain at the final inspection, ensure the permit will allow it.
